

macOS

macOS includes PDF support throughout the operating system.

Method 1: Print to PDF

1. Open the document.
2. Click **File** → **Print**.
3. In the Print window, click the **PDF** button in the lower-left corner.
4. Select **Save as PDF**.
5. Enter a file name.
6. Choose a location.
7. Click **Save**.

This works in nearly every Mac application.

Method 2: Export from Pages

1. Open your document in Pages.
2. Click **File**.
3. Select **Export To**.
4. Click **PDF**.
5. Choose quality.
6. Click **Next**.
7. Save the file.
